nuHarbor

Microsoft Services Overview

Microsoft Security, Realized.

You trust Microsoft Security. We bring the expertise to unlock its full potential.

If you're adopting Microsoft Security, we can help you ensure that it's part of a high-performing security program. From 24/7 threat detection to compliance and data protection, our services are tailored to your goals and built to deliver results.

Explore our Microsoft Security Services

Microsoft Defender Health Check

A focused review of your Microsoft Defender environment to identify gaps, reduce false positives, and improve detection outcomes.

Microsoft Purview Quick Start

A short engagement to activate Microsoft Purview, identify sensitive data exposures, and deliver a prioritized remediation plan.

MSEM Quick Start

A rapid assessment using Microsoft Security Exposure Management to uncover external risks and provide prioritized, actionable remediation guidance.

MDR for Microsoft Defender

24/7 protection and response for Microsoft Defender. Tuned and managed by experienced analysts to reduce noise and strengthen endpoint defense.

MXDR for Microsoft Sentinel

24/7 managed extended detection and response built on Microsoft Sentinel. Improve visibility, streamline operations, and align detections to your business and compliance goals.

Managed Services for Microsoft Purview

Discovery, governance, monitoring, and tuning of Microsoft Purview to protect sensitive data and meet evolving compliance needs.

nuHarbor

Microsoft Security Managed Services

Get more from the Microsoft security tools you already own.

Microsoft delivers powerful detection and response across Defender, Sentinel, Purview, and Exposure Management, but getting the most from them takes ongoing expertise and tuning. nuHarbor helps you configure, manage, and optimize your environment so your team can cut alert noise and focus on priority risks.

Our Approach

1. **Assess**
   Review gaps and inefficiencies in your Microsoft environment with the Defender Health Check, Purview Quick Start, and MSEM Quick Start.
2. **Optimize**
   Tune detections, refine configurations, and improve automation, data governance, and policies.
3. **Manage**
   Ongoing engineering and operational support, including Managed Services for Microsoft Purview.
4. **Detect & Respond**
   24/7 monitoring, investigation, and response with MDR for Microsoft Defender and MXDR for Microsoft Sentinel.

What You Get with nuHarbor

Strengthen the tools you already own
Configuration, tuning, and optimization of your Microsoft security stack.

Extend your security team
Experienced experts, without recruiting, training, or retaining more staff.

Reduce noise, improve response
Better configuration, detection tuning, monitoring, and investigation.

Keep security current
Stay aligned as risks, data, priorities, and business needs change.

Built in Vermont. Trusted nationwide.

We work alongside your internal team, with the flexibility to start at any stage.

Get more from your Microsoft Security investment.

Consult with a Microsoft security expert.
